Karen – Please forward the call-in information onto those individuals at EPA who will be invited to participate in this conference call with Shell on the AMEL OOOOa issues. Attached is a copy of a white paper on the AMEL issues that I circulated earlier this week and will be the focus of our conference call next week. The attached white paper discusses a few key improvements for improving the AMEL process, along with regulatory text that illustrates how the Agency might go about in removing certain key potential barriers to the AMEL. Thanks again for your help and we look forward to our conference call next Wednesday.

Best,
Stephen
